Ok. No problem. PLT here said it was gas interdiction. All good.

I just heard about an enforcement action over the air. Just to be clear, from Insp Bernier and the PLT, we should not be doing enforcement. We are to focus on education and discouragement. Thanks guys.

Please share with all the members at NCRCC that would need to know.

Dan

Folks,

As of the time of this email, the Commanders Intent regarding fuel interdictions is as follows:

We are educating and discouraging fuel and material deliveries to the convoy. We are still not allowing vehicles to enter the red zone.

Please include this in the briefing, as there is confusion and interdictions still happening.

With thanks,
Dan
